

GERMANS IN MASSED ATTACK MOWED DOWN BY THE BRITISH MACHINE GUNS AND ARTILLERY

When Hoped For Counter Drive Comes, British Inflict Awful Losses.

MORE GROUND IS GAINED

Fiercest Fighting of War is Now Going on in Vicinity of Cambrai. Germans Strain Every Effort to Stem Tide of British Victory.

By Associated Press.
LONDON, Nov. 23.—The British have advanced their line slightly in Flanders, southeast of Ypres, the war office announces. The situation on the Somme front southwest of Cambrai is unchanged.

LEADER OF BRITISH IS RECENT DRIVE PROMOTED

LONDON, Nov. 23.—King George has promoted Lieutenant General Byng to the rank of general in recognition of his distinguished service in the field in the recent operations, it was officially announced today.

GERMAN MASSED MOVING DOWN BY BRITISH FIRE

BRITISH ARMY HEADQUARTERS IN FRANCE, Thursday, November 22.—The success of the British army in the Cambrai sector has continued to grow steadily and Field Marshal Haig's troops in a little more than two days fighting have overrun an area equal in size to that won by the Germans during the 15 days of their spectacular drive on Verdun.

The British cavalry, tanks and infantry today were pushing their way forward along a line which at many points west and southwest of Cambrai was less than three miles from that important town. The advance also was spreading northward in the region of Bullecourt and the salient toward Cambrai was being widened.

The total of prisoners must approach the 9,000 mark.

At last the British and Germans are at grips on comparatively open ground and some of the fiercest fighting of the war has been going on. The enemy troops were unprepared for the attack but they have been putting every ounce of their strength into an attempt to stem the rising tide.

It is now possible to give more details of Tuesday's battle. In the advance south of Cambrai the first hard fighting occurred in the Lincourt wood which lies on the Cambrai highway south of Masnières. This wood finally was cleared of Germans and the advance continued toward Masnières.

Some opposition was encountered in a suburb, but by 1 o'clock this was overcome and the British had crossed the L'Escant canal at a lock. The small German garrison fought bitterly to retain Masnières. The whole place was undermined with dugouts in which the enemy was hidden with machine guns, but the Germans were forced to give up this place after a sanguinary struggle although some of them were still holding out in the cellars today.

Narcosis was taken with small resistance on the part of the enemy and this gave the British a good crossing of the canal. The advancing troops forced a passage here at the same hour as Masnières was entered.

The Masnières-Desmoules trench line north of Masnières apparently had been reinforced by Germans from Cambrai and this front held up the advance temporarily with rifle and machine gun fire but the British ultimately forced the Germans from the trenches in hand-to-hand fighting.

German resistance on the first day was comparatively weak as a whole and they surrendered freely in many places. Yesterday their lines stiffened and hard fighting followed. German reinforcements from Lens and the two companies of Invalids, already mentioned, were thrown into the line.

The first counter attack came over the light from the northeast of Masnières. The enemy advanced in massed formation as in the early days of the war. The British had concentrated a large number of machine guns at this point and were hoping for a counter attack. They planted the enemy in advance to within 1,000 yards of the line before they opened fire. Then the machine guns and artillery were turned on the Germans and they were mowed down in a withering fire.

At 1 o'clock an attack on Masnières was attempted by the enemy but as in the former case they were caught in a heavy artillery and machine gun fire and they turned back after suffering severely.

TEUTONS TRY TO ENCIRCLE ITALIANS, BUT FAIL.

ROME, Nov. 23.—A great snatching attack was attempted yesterday by the Austro-German forces against the Italian positions in the Carso region, but the Italians held all the positions it was announced today by the war office.

Throughout yesterday the Teutons attacked the Italian positions between the Brenta and Piave rivers. Several positions were lost, more than once, the statement adds, but all were retaken.

CHRISTIANS SHOULD LOVE EVEN GERMANS—WHEN THEY ARE FIT TO LOVE—DR. HILL

Declaring, in answer to the assertion that Christians must love everyone, even Germans, that the Germans must first be made fit to love, and that General Haig was now going a long way toward making them thus fit to love, Rev. J. J. Hill, superintendent of the McKeesport district, Pittsburgh conference, of the Methodist Episcopal church, this afternoon made a splendid address here on the church and what its aims during the war should be. The talk was just one of the series making up the program of the war council of the McKeesport district, being held in the local Methodist Episcopal church today.

Rev. Hill's address was on the subject, "Plans for the District Campaign." The speaker contended that the work of the church was always to convert sinners to Christianity and that this should go on, war or no war.

Bishop Franklin Hamilton's address at the morning session on "Comradeship of the Cross," was one of the most inspiring talks heard here in a long time. Bishop Hamilton will preside at the evening's session of the council.

About 50 pastors and delegates from the churches of the district are attending the council here. Women of the local church served luncheon to them at 12 o'clock, and will serve them supper at 5:30.

The evening service will consist of a stereotyped missionary lecture by S. Earl Taylor and an address by George B. Dean. It begins at 7:30.

UP TO WILSON
R. W. to Pass Brotherhood Men's Wage Rises Demands to President.
By Associated Press.
WASHINGTON, Nov. 23.—Demands for wage increases soon to be presented formally to the railroad by the four brotherhoods will be passed on to the President and succeeding developments will depend on what action he may take or counsel he may give.

Results of the conference of the President yesterday with the heads of the brotherhoods have not yet been taken up by the railroad war board, but it was learned today that the railroad executives feel their recent statement placing their interests unreservedly in the hands of the President demonstrated their willingness to do whatever was necessary for the country's interests and a logical pursuit of this policy would require the demands to be submitted to the President as soon as made.

It is expected that the brotherhoods will present the demands approximately about December 1. The railroad boards have indicated that their position, will be that the increase sought, amounting to \$109,000,000, cannot be granted without increased revenues.

Robert Feeney, Uniontown contractor, was injured this morning to the extent of a sprained hip and back and a broken finger, when his automobile skidded and left the road at the railroad crossing just west of Trotter bridge, near the intersection of the Frick Coke company at Leisenring No. 3, also an occupant of the car, escaped injury.

Another automobile accident occurred at Trotter this morning when the Leisenring No. 1 Union Supply store truck turned turtle upon the loss of a bolt. The driver was only slightly hurt, suffering cuts about the face and body bruises, and the truck was not badly damaged.

COUNCIL DECIDES TO LIFT BAN ON RAISING OF HOGS

Porkers to Be Reared Within City Limits When New Ordinance Takes Effect.

PAVING CONTRACT IS LET

Malachi Duggan Gets Job of Bricking, Pennsylvania Railroad Yards, the Cost of Which Will Be Borne by the Railroad; Paving Matters.

As a possible step toward increasing the food supply, council last night decided to lift the ban on hog-raising in the city. An ordinance prohibiting the rearing of the pork-producers inside the city limits has been in effect for several years, it having been adopted at the instance of the board of health as a sanitary measure. This was revoked last night and an ordinance of Councilman M. B. Frye, the city solicitor was instructed to draw up another ordinance permitting raising of pigs inside the city, under certain sanitary regulations during the period of the war.

The contract for paving to be done for the Pennsylvania railroad around the freight station and waiting room, and the streets adjoining, was awarded to Malachi Duggan. The railroad company is paying for all the work but the city hires the labor and supervises the job. The paving includes the grading and curbing of Mountain alley, a section of an unnamed alley, part of Grape alley, and paving around the depot and Peach street.

Two ordinances, one transferring \$600 from appropriation No. 47 of the general contingent fund to appropriation No. 7 of the department of public affairs, and the other transferring \$2 from appropriation No. 16 of the department of public affairs, to appropriation No. 6, in the same department, were passed.

A letter from Assistant Solicitor F. E. Younk, saying he had served writs on eight property owners for non payment of paving costs, was read. The writs were served on Mary Eason, and Nora J. Hart on Baldwin avenue; James Ross and Tony Rulli on Morris avenue; W. H. Davis, William Shipley, Mary Ellen Lane, and George C. Rhabottom, all of Ashmun avenue. Since the serving of the writs, Ross, Rulli, Davis and Mrs. Hart have paid. The assistant city solicitor is systematically notifying all others.

A letter from Superintendent of Schools S. P. Ashe relating to the playground matter was read. He asked that council turn over its appropriation for the equipment to Treasurer Peto, so that the bills can be paid. The matter is all on hand. The playground did not develop this year but is expected that an early start on the work will be gotten next spring.

The city clerk was instructed to send a bill to J. M. Reid for the equipping of a sidewalk in front of his property on East Columbia avenue.

Y. M. C. A. WORK ON WESTERN FRONT AS SEEN BY ONE IN THE VERY THICKEST OF IT

"In the midst of all the war's desolation in Europe," writes Roy B. Chamberlain of Uniontown, who is a Y. M. C. A. worker with the American Expeditionary Force in France, "the Y. M. C. A. alone is launching and carrying out on a large scale a virile, constructive program, untrammelled by any political or religious limitations, but universal in its scope and application."

Mr. Chamberlain's letter, which follows, cannot but stir local people to the prospect of Y. M. C. A. drive to raise \$10,000 in Connellsville.

"One great wish of every Y. M. C. A. secretary serving with the American Expeditionary Forces in France is that the people at home might realize with vivid clearness the huge task, with smiles on your lips and souls in your throats, because you have realized only too well that this game of war is one of destruction—terrible, pitiless, universal destruction. Three years of it have burned into your souls the vision of the sacrifices which our country is facing. Of those who leave her shores, many will not return; many more will bear the marks of the conflict to their graves; and still others, the most tragic of all perhaps, will return with souls scarred and spirits broken—all because of WAR!

"And in this midst of all of 'wild war's desolation' the Y. M. C. A. alone is launching and carrying out Continued on Page Nine

GAS COMPANY GIVES \$1,000

With more than \$5,000 to be raised to complete the city's quota, Connellsville Y. M. C. A. war work fund teams swung into the home stretch of the drive this morning with renewed vigor, and are doing their best to bring the local contribution to the \$10,000 goal.

Owing to the inclement weather, most of the team captains made no report at Chairman H. George May's office, headquarters for the campaign, last night. Two of them reported, however, and it is estimated that the total amount subscribed to date is \$4,500.

The suburban committees have not yet made their reports. E. T. Norton and John Duggan, Jr., went to Davidson and got the work there off to a good start. John P. Trader at Broad Ford has received his supplies and is ready to make a canvass there. The South Connellsville committee say they expect to be able to make a report tonight.

The campaign will continue today and tomorrow, and may be held open over Monday to give all late comers a chance to subscribe.

EIGHT POLICEMEN REQUEST REMOVAL OF CHIEF ROTTIER

Charge Him With Insobriety, Misbehavior in Office and Pro-German Sentiments.

TO GET HEARING SATURDAY

Letter Signed by Eight Members of Force is Presented to Council Last Night; Signers Declare They Will Resign Unless Chief is Ousted.

Declaring that they will no longer work under Chief of Police Barthold Rottier because of "his insobriety, his misbehavior in office and his strong pro-German sentiments," eight members of the police force, in a letter presented to council last night, demanded that the police head be removed from office. Furthermore, they expressed their confidence of being able to prove the charges if the chief demanded a hearing.

Council decided to hold a hearing Saturday morning at 9 o'clock. Chief Rottier having asked this when summoned before council and the letter read to him.

The letter, which is signed by all of the policemen except Patrolman Thomas McDonald and City Detective J. W. Mitchell, follows:

To the Mayor and Council of the City of Connellsville:—

Your undersigned petitioners, all being members of the police force of the City of Connellsville, hereby request the immediate suspension from duty of Chief Barthold Rottier for reasons hereinafter enumerated, and should you refuse to make such suspension, you will consider our tenure of office as members of the police force thereby terminated and accept this petition as the resignation of each of the undersigned.

We refuse to continue our services to the city under Chief Barthold Rottier because of his insobriety, his misbehavior in office, and his strong pro-German sentiments, and should be deemed a hearing on any or all the above charges, we want ready to produce what we believe to be sufficient evidence to justify our present demand. The action is not prompted by any personal ill will, but by a conviction that the best interests of our city and country require it, and we respectfully ask that it be reviewed by those to whom it is directed, and that the action herein requested be immediately taken. Sincerely,

JOHN H. BAINES, WM. B. BOWEN, A. COUGHERNOCH, CHAS. STODOLY, D. H. TURNER, J. JAMES FRANCIS, F. M. HULL, J. SUTHERLAND.

Although told that he would not be required to make a statement until the hearing on the charges made against him, Chief Rottier when summoned before council to hear the letter read, declared that he was "an American citizen and proud of it." He declared that he had been a good citizen and obeyed the laws of this country for some 37 years, referred to the fact that he had a son in training for the Army and said that if necessary he was willing to go himself.

Chief Rottier declared that "spite work" was back of the scheme to make him an outlaw and said that he did not mind it for himself so much as his family's sake.

"I am a good American citizen as anyone in this room," he declared. "The chief mentioned the name of Patrolman John Barnes as one of those who 'got their heads together' to bring about his downfall and designated two 'brothers-in-law,' without giving their names.

Various misdoings of the police were cited by the chief. "You know the behavior of some of these men," the chief declared, addressing the mayor. "Yes, and I know of yours," the mayor retorted.

A Description of the Universal Simplex Combination Coal and Gas Range, Which Are Convincing Proofs That It Is the Best Range Made in the World

Range has eight holes for cooking.

Has an 18 inch oven in which you can use coal and gas at one time. The oven capacity will handle as much as stoves twice the price.

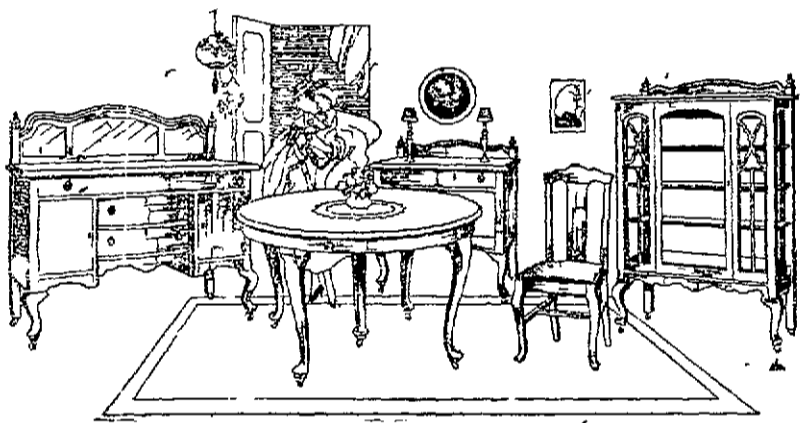

The most compact combination coal and gas range built. It does not take any more space than a common ordinary coal range.

The triple action oven control has a patent device which is far the most simple and safe on the market. There are no parts to change in the oven. This feature makes it an absolutely fool proof due to the principle which automatically turns on the gas, elevates the burner and opens the exhaust damper in one operation. Makes it impossible for the operator to forget anything, and eliminates any possibility of gas accumulating to cause danger of an explosion in the event that it is turned on accidentally and not lighted.

The oven burner is only 3 inches in diameter, yet it has a flame spreader of practically 14 inches. This will give more even and wider heat distribution than the ordinary star burner.

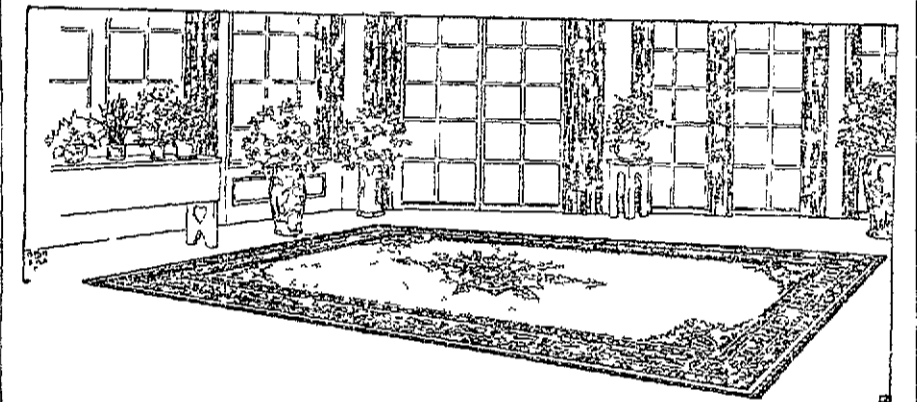

The Universal Simplex coal and gas range is made of all cast iron. The Universal finish in construction is in a class by itself. COME IN FOR DEMONSTRATION.

It's marvelous the way this great

mendous sale is due to its actual merit.

NURSE SAVES 2 CONNELLSVILLE PEOPLE FROM OPERATION

"I had two patients that the doc-
tors seemed unable to reach with
their medicines and in both cases
advised the knife. A friend who
had tried May's Wonderful Remedy
for Stomach trouble proposed that I
recommend it to my patients, which
I did. Both are entirely well. I am
very glad that I was able to recom-
mend it. It removes the catarrhal
inflammation from the intestinal tract, and
alleviates the inflammation which causes
practically all stomach, liver and in-
testinal ailments, including appendi-
citis. One dose will convince or
money refunded. A. A. Clarke.—Adv.
